

Su-Kam installs a 100 KWp Grid-Tie Rooftop Solar PV power plant for Clay Craft (India) Pvt. Ltd. in Jaipur

- To install another 100 KWp Grid-Tie Rooftop Solar PV power plant at the same site

Jaipur, Sep 17, 2015: Su-Kam Power Systems Limited, India's leading power back up solutions provider, has installed a 100 kWp Grid-Tie Rooftop Solar PV power plant in Clay Craft (India) Pvt. Ltd., Jaipur. The 100 kWp Grid-Tie Rooftop Solar PV power plant will generate approximately 1, 40,000 units of electricity, propelling a savings of nearly Rs. 9, 10,000 annually. Su-Kam has been given the overall responsibility of designing, supplying, testing and commissioning of the solar power plant.

The entire system consists of two string inverters of 50 KW each and 400 solar PV panels of 250 watt each. The power generated from the solar system will meet part of Clay Craft's energy requirements to run heavy machineries like furnaces, printers, air conditioners, computers etc. The surplus energy required will be fulfilled by the energy supplied through the utility. Looking at the benefits of a solar plant, Clay Craft has decided to install another 100 KWp at the same site. Work is already under progress to achieve this target.

Su-Kam is also installing a 40 KWp grid-tie system in Sharp Minchem Pvt. Ltd. in the city.

Speaking on the occasion Mr. Devinder Kumar, CEO-Solar Projects, said, "We are very pleased to make our first solar installation in Jaipur through this project and look forward to making further contributions with our expertise in solar in other parts of Rajasthan as well. We are looking at making our solar presence felt in homes, offices, institutions like schools, colleges, government buildings, hospitals, commercial establishments etc. in the state."

Su-Kam is one of the top players in residential solar market with 20.6% market share and pan India presence. A continuing focus on quality and strict adherence to international standards has enabled Su-Kam to export its products to various overseas markets across Asia, Africa, the Middle East and the Pacific region.

About Su-Kam Power Systems

Su-Kam is India's most admired power solutions provider, with growing presence across India and over 70 countries worldwide covering the major expanse of Africa, Middle East Regions, South East Asia, Latin America etc. A truly knowledge driven company, with innovation at heart, Su-Kam develops intelligent power back-up solutions, engineered to be energy efficient and thus reduce the user's carbon footprint.

Headquartered in Gurgaon and with 6 state-of-the art manufacturing facilities certified under OHSAS – 18001, this ISO 9001 and ISO 14001 certified company leads the market with its product

Press Release

innovation, design sensibility and a large and widespread sales distribution network. The company has over 30000 dealerships in India.
