Su-Kam participates in 'Energizing Gurgaon Through Solar' – a workshop organized by Gurgaon First

Reiterates its Commitment to Solar Energy for Cleaner & Greener Tomorrow

New Delhi, February 25, 2015: Su-Kam Power Systems Limited, the leading player in the power back-up industry in India, participated in 'Energizing Gurgaon Through Solar' – a workshop organized by Gurgaon First, a platform created by progressive citizens for positive change for the city of Gurgaon. The workshop was attended by Dr A K Tripathy, Ministry of New and Renewable Energy, Govt. of India; Mr. Vikas Gupta, MCG Commissioner, Mr. Sathyaprakash, DC, Gurgaon amongst others.

The workshop 'Energizing Gurgaon Through Solar' was an initiative to discuss the importance of solar energy and the State Government's commitment to the development and scaling up of renewable energy. The Government of Haryana has recently introduced a new policy making solar power installation mandatory for all buildings on a plot size of 500 square yards or above in the state. The policy targets achieving Megawatt (MW) scale grid connected solar power project, rooftop grid interactive SPV system, small scale grid solar power projects, training program on solar projects in ITI and also introducing diploma courses on the same.

Mr. Kunwer Sachdev, Managing Director, Su-Kam said, "It is very encouraging to see that the state government is putting a lot of thrust on implementation of solar power to address the power crisis faced by the state. We at Su-Kam realize that the future of the power industry in India is going to be driven by the renewable energy sector primarily dominated by solar energy. As part of our solar plan this fiscal, we are bullish in making solar power available to both the residential as well as commercial sector in Haryana. We, as a company, have developed affordable solar products and are bullish in spreading awareness about the use and ease of solar solutions."

During the occasion, Mr. Prashant Kalra, Assistant General Manager at Su-Kam Power Systems Limited spoke on the importance of solar energy and how harnessing untapped and inexhaustible solar energy would not only usher-in required energy mix but would also significantly reduce the emission of carbon dioxide and other toxic gases. Mr. Kalra also highlighted several innovative solar power back-up products and solutions that Su-Kam has made available to customers across India.

Su-Kam has made available a range of solar products for diverse requirements of customer's - right from the small solar powered Home lighting solutions, MPPT based Solar Charge controller, Grid tie inverter, Battery equalizer, Demo tool kit, DC system- led fan, Solar Street lighting systems etc. Brainy- a complete solar package for home usage that operates on Solar as well as Grid Power, Solarcon- a hybrid solar charge controller which can be connected to any existing UPS or Inverter to convert it into a solar-powered system and Falcon - Sine Wave UPS that provides Pure Sine Wave output and is 100% clean, regulated, and completely stable and distortion free and absolutely safe for running the most sophisticated and sensitive appliances are few unique products offered by the company.

Su-kam is one of the top players in residential solar market with 20.6% market share and pan India presence. A continuing focus on quality and strict adherence to international standards has enabled Su-Kam to export its products to various overseas markets across Asia, Africa, the Middle East and the Pacific region.
