

Su-Kam successfully installs a 75 KWp Rooftop Solar Plant at IFFCO Chandigarh

- Installation to generate tentatively 1,02,375 units of electricity along with a saving of more than nine lakhs annually

Chandigarh, 23rd November, 2015: Su-Kam Power Systems Limited, India's leading power back up solutions provider announced the successful installation of a 75 KWp Rooftop Solar Plant at IFFCO Chandigarh. The Solar Plant, installed under a contract with SECI (Solar Energy Corporation of India), will produce tentatively 1,02,375 units of electricity thereby, saving more than Rs nine lakhs annually. Su-Kam has been given the overall responsibility of designing, supplying, testing and commissioning of the solar power plant.

Entire system consists of one 15 KWp and two 30 KWp Grid-tie inverters, and 300 solar PV panels of 250 watt each. The project took one month to complete and cost approximately Rs 60 lakh.

Speaking on Su-Kam's commitment to the Solar sector, Mr. Devinder Kumar, CEO-Solar Projects, Su-Kam said "We are delighted to install the Solar Power Plant in Chandigarh and look forward to making further contributions with our expertise in Solar, across the country." He further added "This solar plant will enable them to meet part of the energy requirement and save huge amount of money on electricity bills".

Su-Kam has already made rapid strides in reducing the dependence of consumers on electricity supply from the grid in Punjab. Su-Kam has installed a 1 Mega Watt solar power plant for Punjab Engineering College in Chandigarh; which is the largest solar plant to be installed at an educational institute. The company has also installed a 50 KW solar power plant at Shivalik Public school in Patiala, which has brought down the dependence of the school on electricity from the grid to zero.

Su-Kam is one of the top players in residential solar market with 20.6% market share and pan India presence. A continuing focus on quality and strict adherence to international standards has enabled Su-Kam to export its products to various overseas markets across Asia, Africa, the Middle East and the Pacific region.

About Su-Kam Power Systems:

Su-Kam is India's most admired power solutions provider, with growing presence across India and over 70 countries worldwide covering the major expanse of Africa, Middle East Regions, South East Asia, Latin America etc. A truly knowledge driven company, with innovation at heart, Su-Kam develops intelligent power back-up solutions, engineered to be energy efficient and thus reduce the user's carbon footprint.

Headquartered in Gurgaon and with 6 state-of-the art manufacturing facilities certified under OHSAS – 18001, this ISO 9001 and ISO 14001 certified company leads the market with its product innovation, design sensibility and a large and widespread sales distribution network. The company has over 30000 dealerships in India.

Su-Kam is the only power back-up company to be recognized for its R & D by the Department of Science and Technology, New Delhi. The company is credited for filing the highest number of patents in the Industry with an average of 2 patents filed every month. The company has received several prestigious awards like Asia's Most Promising Brand 2013, Business Super brand 2008, Selected Super brand 2009, Power brand India 2010, and National Award for quality Product from Government of India etc.

Working further towards a cleaner, greener planet, Su-Kam is branching out towards eco-friendly inexhaustible energy solutions like solar power. For more information, please visit www.su-kam.com
